ISO Certificate

Our products are made with durable acetal, PETG or laminate material and include a high grade certified sphere with one of 16 different contaminants. The material in our test pieces is food contact safe and approved by both the USDA and FDA. The test spheres are completely sealed and mechanically bonded to each product. Test pieces are color coded as noted. The sphere sizes range from 0.5 mm to 10.0mm diameter (call for larger or smaller standards). *Pricing and availability are subject to change without notice based on supplier inventory and manufacturing time.*

BELOW IS A LIST OF STANDARD/STOCK ITEMS AND A SAMPLING OF OUR CUSTOM ITEMS. WE CAN MANUFACTURE ALMOST ANYTHING YOU NEED. CALL US FOR DETAILS.

*PLEASE NOTE: All products with aluminum or non-metal contaminants are \$10 more than the standard metals.
 Quartz products are \$20 more than standard
 Sizes 10.0mm and above will also typically be an additional \$20/test piece.
